Get **HK\$100** Discount  
03 Jul 17 - 30 AUG 17  
3 Day x 2.5 Hours

**Summer  
Workshop 2017**

**HK\$1680**

**Age 3-4**

**LEGO® World (English)**

09:30-12:00

03-05/7  
24-26/7  
14-16/8

**Over the Air,  
Land and Sea**

Have you ever wanted to travel around the world? On a plane? Boat? Or a train? How about combining all of them and save some time.

10-12/7  
31/7-2/8  
21-23/8

**My Neighborhood**

Bored of the city view, tall buildings and people rushing everywhere? Let's have a getaway to a village, farm, or at least to a park. We could build our own living place and have a new sense of neighborhood.

17-19/7  
07-09/8  
28-30/8

**Home Builder**

Do you have what it takes to be an architect? Come and learn what is going on in a construction site. Design your very own structure and surprise the world.

**Age 5-6**

**LEGO® Adventure (English)**

14:00-16:30

03-05/7  
24-26/7  
14-16/8

**I am an Astronaut**

Are you ready to venture into the unknown space? What do we need? A rocket? Enough supplies? Get ready, buckle up and launch!

10-12/7  
31/7-2/8  
21-23/8

**Young Inventor**

Have you ever imagined to create an amazing invention that could entertain other people? It could be a simple toy spinner, magic trick container, or even a Zoetrope. You, young inventor, you could make the world smile.

17-19/7  
07-09/8  
28-30/8

**Amazing Lever**

A Lever is a very common simple machine that has been used in our daily life. Ever wondered how we can use it in party? To make a robot? Or in a clock? Let's find it out

**Age 7-8**

**LEGO® Inventor (Cantonese)**

10:00-12:30

24-26/7  
14-16/8

**Drumming Monkey**

Why do you think people enjoy riding on a Ferris Wheel? Customized your Ferris wheel with your own programming. You can adjust the speed, or use the sensors to make your ferris wheel stop for a while.

31/7-2/8  
21-23/8

**World of  
Wheels and Axles**

What makes a merry-go-round spin properly? How does a clock work? Yes you are right! The gears. Let's create other spinning objects combining gears with the simple machines set.

17-19/7  
07-09/8  
28-30/8

**Goal Kicker**

Are you ready to be a little programmer? Yes, you could build your own lion, create it with his mouth open and close repeatedly. Don't forget to complete it with the 'roaring' sound, of course.

**Age 9-10**

**LEGO® Robotics (Cantonese)**

14:30-17:00

24-26/7  
14-16/8

**Homing Robot X-66**

Oh No! The Evil Professor has captured one of your robot and is trying to copy it as his own. Hurry up and activate the homing system on your robot, so it can escape and come home.

31/7-2/8  
21-23/8

**Pinball Machine**

Ping, Pong, Ping, Scored! Build your own Pinball Machine and invent your own traps. Set new rules and beat the score. We are ready, are you?

17-19/7  
07-09/8  
28-30/8

**Home Security System**

Beep Beep beep! Intruder alert, Intruder alert! Design and Program your robot to detect object coming into your area. Door locked! Area secured!

**Terms and Conditions:**

- 1) Course application will be processed on first-come-first serve basis.
- 2) Tuition cannot be refunded or transferred to any third party after schedule is confirmed.
- 3) NO changes on class schedule and center location would be available for any workshops once the enrollment is done.
- 4) Classes will be cancelled once Typhoon Signal No. 8 or Black Rainstorm Signal is hoisted.
- 5) LEGO® Education Afterschool Programs authorized center(s) reserves the rights on any changes.
- 6) LEGO® Education Afterschool Programs authorized center(s) cannot be held liable for injuries or illnesses which children may sustain from their participation in any of the activities.

**Prince Edward**  
6/F, Wai Hing Bldg, 148 Prince Edward Rd West,  
Kowloon, Hong Kong
