

Membership Smart Guide (For Regular Course Only)

We at LEGO Education Center offer a well-designed curriculum that allows your child to exercise their creativity, problem-solving and team-working skills with different topics every week.

- As a valued member of LEGO Education Center, your child is entitled to enjoy our [LEGO Courses once a week; please bear in mind that the same topics are conducted throughout the whole teaching week.](#)
- Our teaching week starts from [Thursdays until Sundays](#); classes will be available according to our [Regular Course Timetable](#).
- A place at your specified timeslot is automatically reserved for your child until the membership expires. Hence, [NO further booking is required unless a change in schedule is requested by written consent.](#)
- We understand children may have a busy schedule or can be affected by sickness. Henceforth, our Center has provided greater flexibility by offering some rescheduling options. However, rescheduling is only applicable if you wish to [reschedule to another class in the same teaching week.](#)
- Make up classes or extension of memberships will not be applicable in any given circumstances if rescheduling cannot be organized within the same topic week. Please kindly send us a reschedule email with the desired class time through lec@pigeoncity.com.hk ONE working day in advance to avoid class overloads or disappointments.
- In order to assure your child's learning progress, our Regular Course Timetable can always be found on our website for your reference and future planning.

Example 1: Leon's Daddy wishes to reschedule his Friday class ONE day before his regular scheduled lesson due to school interview. Since he is rescheduling in the same teaching week, he won't miss any classes in his Membership.

Example 2: Amy joins the class every Sunday afternoon, but Saturday night she starts to have a fever. Since Sunday is the last day of the week, then no reschedule can be provided.

Example 3: Eva and her family are going on Holiday during summer, she will not attend class for 3 weeks, and therefore no extension of Membership can be provided.
